About Me

Enthusiastic Data Scientist with a strong foundation in data analysis, machine learning, and statistical modeling. Passionate about leveraging data-driven insights to solve real-world problems. Proficient in Python, SQL, and data visualization tools.

PROJECTS AND INTERNSHIPS

Project

2024

DATA DRIVEN INSIGHTS INTO AIRLINE PRICING

- Examine historical airline fare data to identify trends, seasonal variations, and dynamic pricing strategies used by airlines.
- Analyze pricing differences across airlines, routes, and booking windows to understand competitive positioning and demand fluctuations.
- Use machine learning or statistical techniques to forecast future airfare trends and provide recommendations for cost-effective travel booking.

Internship

2023 - 2024

DATA ANALYTICS

- Gain hands-on experience in collecting, cleaning, and analyzing data using tools like Excel, SQL, Python, or Power BI.
- Learn how to interpret data trends, create dashboards, and generate reports to support business decisions.
- Work on live datasets, collaborate with teams, and apply statistical methods or machine learning techniques to solve practical problems.
